

ATHLETIC TOURNEY AT GYM OPENING

Nearly Full Amount Required For New Institution Has Been Subscribed

Men and boys are asking when the Young Men's Gym will be ready. They are getting anxious to get a work out in the new gym. There will be a free athletic tournament of wrestling, boxing, fancy bag punching, horizontal and parallel bar exhibition, on the opening night of the gym. The Rhinelander band will be asked to furnish music. Many of Rhinelander's best athletic men and boys will take part. The church auditorium will be used for spectators.

The following men have thus far contributed:

W. E. Brown \$10
C. H. Donaldson \$10
C. P. Crosby \$10
E. O. Brown \$10
Wm. Eibel \$10
J. J. Reardon \$5
R. A. Reik \$5
J. A. Sanns \$5
A. S. Pierce \$5
Dr. Westgate \$5
Matt Stapleton \$5
J. O. Moen \$5
Fred Moore \$5
J. W. Danielson \$5
F. A. Hildebrand \$5
L. A. Leadbetter \$2
W. C. Liebenstein \$2
Wm. F. Mielck \$2
S. R. Brown \$2
G. S. Keapock \$2
A. A. Tietz \$2
James Trumble \$2
Harve Tuttle \$2
Frank Lambert \$2
Chas. Conro \$10.

UNIVERSITY MEN VISIT THIS CITY

Pres. Van Hise, Dean Russell And Regents Inspect County Agent's Work

President Van Hise, Dean Russell of the Agricultural College, Business Manager Thorkelson, Secretary McCaffrey and four university regents made a trip to Oneida and Vilas counties on Wednesday the prime object of which was to investigate the County Representative proposition. They visited the farm of Henry Blumenstein, E. M. DeLong and Philip Folkner at Woodruff and then came to Rhinelander, arriving here at 10:26 a. m. They were met at the train with automobiles and taken to the State Hygienic Laboratory where Mr. Slivinski gave a short talk, explaining the nature and extent of his work. They then went to the office of the County Representative where they inspected numerous county products and learned more of the work of the Agricultural Representative. They then visited the farm of George Burkhardt.

At 1:30 at the Elks' club room President Van Hise talked informally to about 50 business men and farmers. He told of the good things they had learned about the County Representative's work while in the county and then contrasted the methods of farming at the time he was a boy with the present methods, mentioning the marvelous change that had taken place in the last 50 years. "Never before," he said "has there been such need for scientific principles to be applied to the farm" and it was with this idea that the County Representative had been established. He then explained how the University was trying to help in just this kind of way. He also showed how facts concerning the University had been misrepresented. Instead of the cost per student being \$500 per year as has been reported it is only about \$150 and instead of giving instruction to about 6000 students the number totals 10,000. He told of various ways in which expenses had actually been lowered in many departments while nearly double the number of people are accommodated. After the talk the party was taken to Heafford Jct., in cars, stopping at Clay Camp's farm on the way. They all expressed themselves as being grateful to Rhinelander and Oneida county for the splendid treatment given. They were enthusiastic about the Agricultural Representative's work and the possibilities of Northern Wisconsin as a coming agricultural section. We can all feel that great good was accomplished for our county by this trip.

CONG. CHURCH HAS SUCCESSFUL YEAR

Financial Condition Good—Forty-Five New Members Since Jan. 1

The annual meeting of Congregational churches of Wisconsin will be held in Racine beginning next Tuesday. This has been one of the best years in the history of Congregationalism in Wisconsin. The local Congregational church of which Walter C. Heyl is beginning his second year as pastor, will make a report that will rank well up to the head of the list of churches in the state. During the past church year commendable progress has been made both in improvement in the church property and in membership gain. The financial condition of the church is in splendid shape. A budget of \$2186 for current expenses is practically covered, improvements in the kitchen have been made, a very impressive set of art glass windows has been put in, and a new electric motor to operate the organ has been installed. The windows cost \$500 the electric blower and repairs on organ amounted to nearly \$300. The Pissilla Society of the church are to be congratulated for their fine improvements. In addition to these improvements the congregation purchased the fine lot adjoining the church on the south at a cost of \$2000. This obligation has been nearly met at this date and will be entirely covered by November when a dedication services will probably be held. Best of all there have come into the membership of the church since January first, 1916, forty five (45) people. Thirty-eight of these have united by confession of faith and seven by letter. Others are to join soon. A sum total of \$5100 in one year and the addition of forty-five members in less than a year is an accomplishment that no church need be ashamed to claim. We hope that the new year will see still greater success in this good work. Mr. E. K. Riek and Walter C. Heyl were elected delegates to the Racine convention. They expect to leave next Monday.

SAMUEL ORR DEAD AT AGE OF 87

W. C. Orr received a message Monday conveying the news of the death of his aged father, Samuel Orr, which occurred in Langlade county, where he made his home with a son, James A. Orr. Deceased was 87 years of age and was a native of St. Andrews, N. B. He was one of the early settlers of Winnebago county, having located there in 1850. He had a number of friends in Rhinelander, having frequently visited at the home of his son here. Despite his advanced years Mr. Orr until a brief time ago had always been in good health and seemed to possess the vitality of a man thirty years his junior. He leaves four sons, James A., of Langlade county, W. C., of this city, D. E., of Oshkosh and G. W., of Los Angeles. The funeral was held in Oshkosh. W. C. Orr left for that city Tuesday.

G. WHITE DEAD; LEAD BAND HERE

Edwin Grant White of Lancaster, a former director of the Rhinelander band, died of tuberculosis at the Wales Sanitarium last week. H. D. White, father of deceased, Jesse White, a brother, and several members of Weber's band went to Fond du Lac from Stevens Point to attend the funeral. Mr. White was a proficient cornet player and directed bands in Fond du Lac, Rhinelander, Green Bay, Lancaster and Stevens Point. He had charge of the Stevens Point band 4 years and left that city three years ago. The deceased was well known in this city, and while he resided here held a position at the Segerstrom jewelry store aside from directing the band. He leaves a father, wife, and two brothers, Jesse White of Stevens Point and Howard of Jonesboro, Ark., director of a bank at that place. Another brother, Dell died in Chicago last winter.

THEY WISH TO WED Licenses to wed were issued the last week by County Clerk J. J. Verage to John Quade and Clara Gref, Rhinelander; Adolph Zacharias and Emma Marie Weillip, Rhinelander.

BOARD OF REVIEW ASSURES ASSESSMENT READJUSTMENT

Tax payers in large numbers have appeared before the board of review, in session at the city hall this week, to protest against their property assessments, which in scores of cases are admitted to be exorbitant. Since the board began its session Monday morning it has not had a dull minute, the taking of testimony occupying the entire time.

That the board will make a whole sale readjustment of assessments there is little doubt. L. B. Woodruff, secretary of the Rhinelander Advancement Association, met with the board Tuesday and was practically assured by that body that a satisfactory readjustment will be made. In every case where it is considered necessary the assessment will be lowered to a reasonable figure. That the valuations are extremely excessive is the general complaint.

The board of review will adjourn Saturday afternoon and will again convene Tuesday morning at 9 o'clock.

LAFOLLETTE HERE TO-NIGHT

Senator Robert M. LaFollette will speak to the voters of Rhinelander and Oneida county at the Armory, this city, tonight. Among the important subjects which the Senator will discuss during the course of his speech will be the Underwood bill, the seaman's act and the eight hour law. Senator LaFollette will arrive late this afternoon from Cranston.

Monday night Senator LaFollette addressed 1500 people in Marinette and has since been greeted by large crowds in all the cities where he has spoken. Today he spoke at the Forest county fair and will speak at the Rusk county fair Friday.

TO WED OCT. 11 BIG POTATO SHOW HERE OCTOBER 26

Miss Esther Boston of Stevens Point, niece of Mr. and Mrs. Charles H. Ball, of this city, will be united in marriage on October 11 to Oscar J. Hoffman of Marshfield. The Marshfield Times tells of the approaching event:

Oscar J. Hoffman, one of Marshfield's most popular traveling salesmen, will soon be a member of the fraternity of benedicts. His bride is to be Miss Esther Boston, daughter of H. D. Boston, a furniture dealer and undertaker of Stevens Point, and one of that city's most highly esteemed young ladies. Oct. 11 has been selected as the date of the wedding, to be solemnized at the parsonage of St. Stephen's Catholic church in Stevens Point at high noon. Father Rice, pastor of that church, officiating. A wedding repast will be served at the bride-elect's parents' home and later in the day the couple will leave on a wedding trip to Milwaukee, Chicago and other points. They will make their home in this city. The news joins with their many friends in congratulations and wishes for a long and happy union.

"Mr. Hoffman is a son of Register of Deeds and Mrs. John A. Hoffman of Grand Rapids, formerly of this city. He is an employee of the Universal Portland Cement Co. of Chicago as road salesman, a position he has held the past five years."

ELKS TO STAGE MINSTREL SHOW

According to one of the Elks, who will take an important part in the coming entertainment, the program this year will easily outclass that of any previous minstrel show given by 598. Many new and classy features will be introduced. The best home talent in the city will participate, including all the old time favorites such as Little Charley Bell, Mons. Paul Gaston, Beaver Crosby, Jimmy MacRay, Mistah Al. Lytle and others.

There will be a big free street parade at noon on the day of the show.

INDIANS FAIR BIG SUCCESS

On account of the inclement weather the number of Rhinelander people who attended the second annual Indian fair on the Lac du Flambeau reservation Friday and Saturday was not as large as had been planned. Many business men and their families intended to make the trip in autos but rain Friday interfered with this arrangement. However, those who did brave the elements to attend expressed themselves as highly pleased with the show and the entertainment provided by the Indians and their white brothers.

The fair, according to the assertion of those present, equalled in several respects fairs given in many of the counties of this state. The exhibits in every department were better than one would expect to see in a community where agriculture

COURT SESSION BRIEF; FEW CASES

Short Criminal Calendar—Jury Is Discharged After Two Days Service

With the exception of one case the jury at this term of circuit court completed its service Wednesday afternoon and was discharged from further duties after serving only two days. The present session of circuit court will go down on the records as one of the shortest in the history of Oneida county.

Court convened Monday afternoon, Judge A. H. Reid, presiding. The first case was that of Edward Harris, charged with attempted burglary. Harris was arrested two months ago after trying to break into two homes in this city, according to the charge. The jury after short deliberation returned a verdict of not guilty.

The case against Lena Christensen, charged with keeping a house of ill fame, was continued for the term.

Upon his plea of guilty Frank Guilday, charged with burglary, was paroled for one year to E. H. by the court in this case owing to Markham. Leniency was exercised the young man's past good reputation and the fact that this was his first offense.

Andrew Mendel, charged with larceny, was dismissed. The case of E. D. Ryan, forgery, and John Goldie, larceny, were continued. The case against Joe Eternicka, held on a forgery charge, was dismissed.

Civil Actions

On motion of Plaintiff the case of J. J. Remo and S. G. Tuttle vs. B. R. Lewis was dismissed.

In the action of Dora B. Mercer vs. Fred Lange, administrator of the estate of John A. Mercer, deceased, a verdict of \$1338.65 was returned to the plaintiff. The jury was out twelve hours. At the direction of the court a verdict of \$150 was granted the plaintiff in the suit of Fred O. Johnson vs. the estate of John A. Mercer.

Ingeborg Hayes vs. William Lader, continued.

William D. Meagher vs. Joseph McGinnis, Barker & Stewart Lumber Co., continued.

The jury has been drawn in the suit of Henry Weiler vs. Christ Roepecke, George Taggart and the C. N. W. Ry. Co., and the case will come up for trial next Monday afternoon. This is an action involving alleged injuries sustained by Weiler when struck by a railroad velocipede, which the claims were being operated on the Northwestern tracks by Messrs. Roepecke and Taggart.

Harvey Revoyer vs. Elizabeth Walte, continued.

C. H. Roepecke vs. Gagen Lumber & Cedar Co., continued.

A judgment for the plaintiff for \$58.04 was allowed against the defendant, Jossart, in the suit of Geo. H. Wilson, vs. David Jossart; Oneida county, et. al.

Venison Is Expensive

John Sisson, proprietor of a summer resort near Eagle River, pleaded guilty to two violations of the state game law before Judge Reid Tuesday, hunting deer out of season and serving venison at his resort, and was fined \$55 and costs amounting in all to \$161.50. He was arrested by Henry Oberholzer, conservation warden of Eagle River. Sisson was brought to this city by Sheriff F. G. Hall and District Attorney Charles Wiegand of Vilas county.

Upon pleading guilty to the charge of appropriating an automobile for the purpose of taking a joy ride Dan Brown and Tennace Larene, Tomahawk boys, were fined \$75 and costs and placed on parole. Sheriff Herman Neumann of Lincoln county escorted the youthful offenders to this city.

ALUMNI VICTORS

The High school team was outclassed Saturday both verbally and mentally as well as physically by the strong ex-students. When the rapid fire mouths of the alumni opened from the erstwhile champions preparatory to their charge the gas and fire of the European battlefields were backed off the map.

The alumni had everything their own way for the first three quarters. The Highs started to show some foot ball during the last quarter and were able to hold the alumni scoreless. The score was 25 to 0.

The Highs play Minocqua Saturday. Minocqua has a strong team, but the Highs are primed for a victory.

TO RECRUIT MEN FOR U. S. NAVY

Temporary Recruiting Station Will Be Opened In Rhinelander October 8

C. W. Mozley, Boatswain's Mate U. S. Navy, from the Navy Recruiting Station 222 Grand Ave., Milwaukee, is in Rhinelander making preparations for the opening of a temporary recruiting station at the Postoffice for two days on October 8-9 to examine and enlist men for the U. S. Navy.

Mr. Mozley who has been in the Naval Service for the past nine years, during which time he has been in nearly every important country in the world says, "Many people knowing nothing about discipline in the Navy, believe that it is so severe as to be almost unendurable. Any good man of the Navy will tell you that such is far from the truth. A well behaved man on ship will not feel the discipline any more than a well behaved man on shore feels the law."

Through lack of acquaintance and contact with men of the Navy and through ignorance of the conditions of life in the Navy, large numbers of people really believe that the Navy is made up of men of loose character and foreigners.

The Navy is made up of good, healthy, young Americans. Shiftless, immoral men get in the Navy only by chance; and they are not allowed to remain there long. Only 15 percent of all the men who apply are enlisted; and 96 percent of the men in the Navy are American citizens. No intoxicating liquor is allowed on board ships of the Navy; gambling and profanity are not permitted. The religious tendencies of the men are encouraged, all the larger ships have chaplains."

OFFICERS VISIT STATE TROOPS

Gov. Philipp on Thursday commissioned former Adj. Gen. C. R. Boardman of Oshkosh to go to Texas and convey to the Wisconsin soldiers there the governor's appreciation of their services to the state and nation, and to make a thorough investigation of the conditions under which the Wisconsin troops are serving.

Adj. Gen. Orlando Holway will accompany Gen. Boardman to the Mexican border and attend to state business pertaining to the Wisconsin troops there.

Gov. Philipp regrets that his official duties prevent him from going to Texas. In his letter to Gen. Boardman, the governor said:

"It has been my hope that I should be able to personally visit the Wisconsin National Guard which is now at the Mexican border. Official business, however, prevents me from doing so. I am, therefore, taking the liberty to request you to make this visit for me and to act as my personal representative."

"Will you kindly convey to the members of the Wisconsin National Guard my sincere appreciation of their services? Men who are willing to give not only their time but their lives, if necessary, in the cause of their country are patriots in the true sense of the word. We are looking forward to the time when we can welcome their return home."

"I trust you will find our boys in the best of health and spirits and that you will personally enjoy the visit."

BIG INCREASE IN N. W. EARNINGS

An increase of 13.04 per cent in operating revenues over the preceding year is announced in the report of the Chicago & Northwestern railway for the past fiscal year. The total operating revenue for the last year was \$91,313,865. Operating expenses were 67.65 per cent of the operating revenue, a comparison with 69.78 per cent for the year previous.

Within the last few days the big railroads have paid \$315,000 taxes to the state. The taxes are not due until the month of November. The following amounts have been paid: Chicago & Northwestern, \$200,000; Chicago, Milwaukee & St. Paul, \$50,000; Wisconsin Central, \$50,000; Soo line, \$15,000.

COUNTY BOARD PROCEEDINGS

Rhineland, Wis., Sept. 6th, A. D. 1916 2 o'clock p. m.
Board of Supervisors of Oneida County, Wis., met pursuant to adjournment. Meeting called to order by Chairman Ira E. Smith. Roll call. All members present.

On motion board adjourned until 9 o'clock Sept. 7, 1916.

JNO. J. VERAGE, County Clerk.
Rhineland, Wis., Sept. 7th, 1916, 9 o'clock a. m.
Board of Supervisors of Oneida County, Wis., met pursuant to adjournment. Meeting called to order by Chairman Ira E. Smith. Roll call. All members present except Leudke.

The following Resolution was read:
Resolved by the board of supervisors of Oneida County, Wis., That the County Clerk is hereby instructed and authorized and directed to issue a Quit Claim Deed to John W. Emmerson, David W. Emmerson and Daniel J. Kinne for the SW 1/4 of NW 1/4 Sec. 19 Tp. 36 R. 5 E. to replace a lost unrecorded deed of said land to same parties issued on February 10th, 1903. Dated this 7th day of Sept. 1916.

Offered and passage moved by John B. Mentink, Supervisor.
Moved by Supervisor Mentink seconded by Supervisor Bernstein that resolution be adopted. Motion carried.

On motion Board took recess until 2 o'clock p. m. Sept. 7th, 1916.

JNO. J. VERAGE, County Clerk.
Rhineland, Wis., Sept. 7th, 1916, 2 o'clock p. m.
Board of Supervisors met pursuant to recess taken. Meeting called to order by Vice-Chairman J. M. Baker.

The following petition was read:
See Sec. 572-K of R. S. 1913.

State of Wisconsin, Oneida County ss.
John Sum, being first duly sworn on oath deposes and says that he is a male person over the age of twenty-one years, that he is not an inmate of any charitable, reformatory or penal institution in this state of Wisconsin, that he is not receiving aid from the state or any county or city. That he has an income of less than two hundred and fifty dollars per annum. That he has been a bonified resident of this state for the past twenty-nine years.

That he has been a bonified resident of the county of Oneida for more than nineteen years, next preceding the making of this affidavit which affiant is about to use as application for county aid to blind as provided for by Chapter thirty (30) of the revised statutes of the State of Wisconsin, of the year 1913.

Subscribed before me this 1st day of Sept. 1916.

John Sum
John J. Verage,
County Clerk, Oneida Co. Wis.

State of Wisconsin, Oneida County ss.
S. D. Nelson and F. A. Hildebrand being first duly sworn on oath say that they and each of them are freeholders residing in the County of Oneida, State of Wisconsin, that they are personally acquainted with John Sum who has made the above affidavit and know that he has been a bonified resident of said state for ten years and of said County of Oneida, for three years immediately preceding the making and filing of above affidavit. Subscribed and sworn to before me a Notary Public in and for said county and state this 2nd day of Sept. 1916.

A. J. O'Melia,
Notary Public, Wis.

S. D. Nelson, A Freeholder
F. A. Hildebrand, A Freeholder.

Petition of Mrs. Emma E. Towne, aid for Blind was read.
Moved by Supervisor LeClaire seconded by Supervisor Barlow that petitions of John Sum and Mrs. Emma E. Towne be granted. Motion carried, all members present voting aye.

Report of committee on proposed poor farm site was read.
Moved by Supervisor Gross seconded by Supervisor Wm. Olson that report be accepted and placed on file. Motion carried.

The following Resolution was read:
Resolved by the Board of Supervisors of Oneida County, Wis., that the County of Oneida purchase section 2 Township 36 Range 8 East for the sum of \$7000.00 and that the proper officers are hereby instructed and authorized to draw an order on general fund for said amount of \$7000.00 on the proper execution and presentation of Warranty Deeds of said premises satisfactory to the District Attorney accompanied by Abstract of title to date of transfer.

Dated this 7th day of September 1916.
Offered and passage moved by Chas. Gross, Supervisor.

Moved by Supervisor Gross seconded by Supervisor Wm. Olson that Resolution be adopted. Motion carried. Members voting as follows:
Abbey, Baker, Barlow, Bernstein, Binkley, Dunn, Frederick, Gooden, Gross, LeClaire, Mentink, Meyer, A. Olson, C. H. Olson, Wm. Olson, Torpy, Webster, Wolfgram, Woodzicki, voting aye, 19.

Voting nay, Michelson, 1.
Four members absent, or not voting.

Report of F. E. Parker, County Highway Commissioner was read.
Moved by A. Olson seconded by Supervisor Wm. Olson that report be accepted and placed on file, also that the clerk be instructed to have 500 copies printed and distributed. Motion carried, all members present voting aye. Report of State Aid Bridge & Highway Committee on petition of Ed Wolfgram and others was read as follows.

We recommend that the State Highway commissioner be requested to investigate this matter and if it is his opinion that this change is advisable, that the County Highway committee be authorized to make such change. Also that the County Clerk be instructed to forward the papers relating to it to State Highway Commission.

J. M. Baker
Wm. Olson
James Murphy
Committee.

The following Resolution was read:
Resolution offered by Supervisor Ed Wolfgram.

Resolved by the board of supervisors of Oneida County, Wis., That the present system of prospective State Highway be changed commencing at the Village of Jennings thence north and east to the south-west corner of section 12 Town 35 Range 11 thence east along said section line to the intersection of Forest County line at the south-east corner of said section 12 35-11 a petition and diagram is herewith attached to this resolution. Dated this 7th day of Sept. 1916.

Ed Wolfgram, Supervisor.
Moved by Supervisor Wolfgram seconded by Supervisor Meyer that Resolution be adopted as read. Motion carried.

STUMP SPECIAL SHOWS EASY WAY OF CLEARING CUT-OVER LAND

Various Bodies Interested in Land Clearing Are Co-operating in Movement.

TEN COUNTIES VISITED

All Done to Encourage Up-state Settlement and Development.

Co-operation is the ruling spirit of the series of land clearing demonstrations which is being planned for 10 upper Wisconsin counties in September and October.

The College of Agriculture will supervise the work; the "Soo" Line will supply the cars and carry the equipment, the manufacturers of stump pullers will send their machines and men to operate them; the makers of explosives will provide the necessary supplies and experts to use them; the owners of the land to be cleared will furnish the teams, and public spirited men in the community will take care of the local arrangements.

Could there be more complete co-operation? All are donating to a common cause and it is believed that all will be benefited thereby.

More than that, it is hoped that this spirit of co-operation will not end with the tour of the train. The problem of getting rid of the stumps is the biggest upper Wisconsin has to face. Why would it not be the wisest possible move for all concerned to make this the center of one great big co-operative campaign against the stump? The proposition is certainly sufficiently important and far reaching.

Every man who has cleared an acre is asked to co-operate by adding his bit of experience to a common fund of information. In this way, much valuable information would be gathered and could then be distributed for the good of others.

There are tricks to any trade and land clearing is no exception. Every man who has land to clear does not know that there is an easy or a hard way to light a fuse on a wet windy day, or that there are many excellent land clearing devices that will save his back, or that some live stock will destroy certain sprouts and brush but not others. There are hundreds and hundreds of just such little things that will help both you and the other fellow. Bring them to the demonstration and those in charge will be pleased to pass the good word along to the next county.

SIMPLEST AND EFFECTIVE METHODS DEMONSTRATED.

Details for the project were worked out at the College of Agriculture, University of Wisconsin. Here a man has been given the important duty of gathering all the information possible relative to the existing conditions in the cut-over lands of the North. Further than this, steps have been taken to learn all the best, simplest and most effective methods in use for ridding land of stumps. Much valuable information along this line is now available.

The demonstrations will be made as near the tracks as possible, and every stump in sight will be taken. No spectacular stump removals will be made here and there, but all obstacles to the plow will be met under actual working conditions.

All classes and strengths of dynamite will be carried, and an earnest effort will be made by the makers of explosives to show where the proper kinds at different degrees of strength can be best used. This will be an exceptional opportunity for those unfamiliar with the handling of dynamite and blasting utensils to get the desired information first hand. The use of dynamite in combination with stump pullers will also be shown. Models of a number of excellent home-made piling machines have been secured. Their value in connection with the stump removal apparatus will be demonstrated.

Altogether, the train should attract all people who are truly interested in ways and means of getting the North Country in shape for the farmer. Everything will be free and "above board."

UPPER COUNTIES OFFER MUCH TO THE HOMESEAKER

Northern Wisconsin Favored By Nearness to Good Markets.

"Northern Wisconsin offers to homeseekers and home-makers every advantage to be found in the most favored portion of the land."

That is the estimate of one who has spent years in the upper counties of the state and is familiar with its agricultural resources and farming opportunities.

From his long experience and careful observation he has become convinced that "if fruitful soils are wanted they are there; if clear, invigorating climate is desired, here it is found; if pure water is deemed a necessity, that necessity is found in all its fullness; if nearby active markets are demanded, they are to be found upon every margin of the New Wisconsin, and in all the many smaller manufacturing cities and villages that prevail at short intervals on all the lines of railway that traverse this empire of the New North; and if a desirable surface is demanded, it is almost universal in that immense area of unused lands."

"It would seem that all of the desirable natural conditions needed to make a country great in advantages and attractive to the homeseeker prevail in our counties. In general terms, these advantages consist of: (1) productive soils; (2) invigorating climate; (3) ample rainfall; (4) pure, clear water; (5) excellent drainage; (6) active, nearby markets; (7) manufacturers at every city or village."

Appreciating that such claims as these should be supported by good proof he gives these detailed statements:

Climate Is An Asset.

"Northern Wisconsin has an excellent climate. It is singularly clear and dry. It is modified by the high altitude of that part of the state. The winter season is so continuous and snowfall so ample that there is seldom a day after the first snow that the roads are not in excellent condition. The ample snowfall prevents the ground from freezing except to a very slight depth, which speedily disappears when the snow melts in the spring."

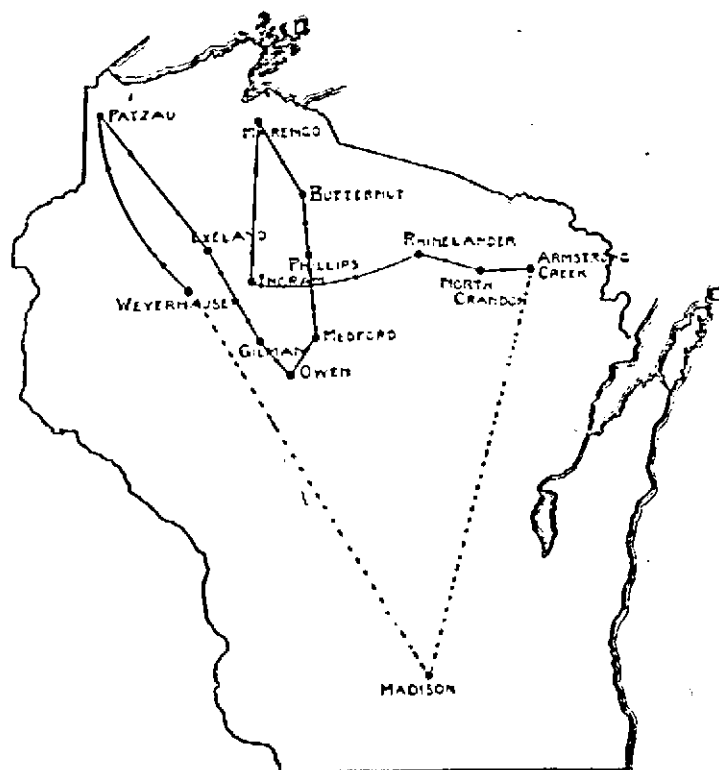

"The importance of rainfall to farming communities needs no argument. Its absolute necessity to success in farming or dairying is everywhere recognized. Wisconsin as a whole has abundant rainfall to assure the harvest of bounteous crops. The average rainfall of the state is 33 inches per year. This is so near the amount of the best states of the Union that it may be said to be normal to crop growth. But in the distribution of this rainfall during the various seasons, Wisconsin has somewhat the advantage of many of her sister states, and in the distribution, northern Wisconsin is specially favored. Crop failure or pasture failure because of drought has never been known in northern Wisconsin."

Markets Near at Hand.

"No subject should have greater consideration in the mind of the homeseeker than desirable markets. This is a matter that should be given more than passing attention. It is the live problem for the farmer of today. It may mean the difference between success and failure in too many cases."

"Northern Wisconsin is specially favored in the matter of markets. It has the benefit of all the many cities and villages within her borders and likewise of large cities on all sides. On the north are Duluth, Superior, Ashland, Bayfield, Washburn, and Hurley; on the west, the cities of Minneapolis and St. Paul, while on the south are all the cities of the State of Wisconsin, and the city of Chicago, which are all great manufacturing cities. Manufacturing activities that are certain to prevail in northern Wisconsin are destined to provide an active home demand for all farm produce for many years to come. But even if the home markets were not equal to the supply, the great demand of the nearby cities assures a stable and active market. The man who is building for the future can not afford to pass northern Wisconsin."

EDITORIAL

The First Step in Empire Building

T. A. HOVERSTAD
Agricultural Commissioner, Soo Line

According to government figures, there are 10,000,000 acres of cut-over lands in northern Wisconsin and of this it is estimated that three-fourths is "fair, or better agricultural land."

If stumps stand in the way of developing 7,500,000 acres of "fair or better" agricultural land, we should know what are the better methods to clear the land of the different soil types in this area.

When it comes right down to the question of the cheapest way to clear any one type of cut-over land, but little is known. It is true many will attempt to answer the question, but the chances are that their replies are backed with information which may concern one section and that the method practiced in one place may not be well adapted to some other region.

In order to study this matter thoroughly, a new branch of work has been started by the Wisconsin College of Agriculture, which is devoted entirely to a study of the problems and costs of clearing cut-over land. This work is being done with the aim to make a clearing house or exchange for land clearing information in the Badger state.

In order to get more land clearing data and at the same time show the farmers in northern Wisconsin what stump-pullers and dynamite can do, a series of land clearing demonstrations will be given through the co-operation of the "Soo" Line and manufacturers of stumping machinery and explosives with representatives of the University of Wisconsin.

The object of the "LAND CLEARING SPECIAL" from which these demonstrations will be made is not to advocate certain methods of clearing, but to show what horse and hand stump-pullers and dynamite can do. The co-operators expect to make this the headquarters for all land clearing information and exchange, as well as give experience in land clearing matters. Special instruction will be given to all those desiring to learn more about stump-pullers and dynamite. Models of home-made stumping devices will be exhibited and drawings with the help of which to make them will be shown.

This is not a train where "high brow" theories will be advanced. Work with machines and dynamite will be carried on under actual working conditions. It is not improbable that as a result of this co-operative work land clearing associations will be formed in several sections of the state.

It is hoped that the tour of the "Land Clearing Special" will aid in collecting valuable land clearing data, show the people of upper Wisconsin what pullers and dynamite can do and carry on a systematic state-wide campaign against stumps. The problem of subduing these millions of acres will involve an expenditure of large sums of money and energy. If a saving of but a few per cent can be made it will be well worth while.

LOW COST PULLING AND PILING SHOWN AT ALL DEMONSTRATIONS

LIVE STOCK AIDS THE SETTLERS IN "GROWING" FARMS

By Selling Live Stock Products Least is Taken From Farm.

First of all there is that prime requisite for fine butter and cheese, namely, an ample supply of pure, cold water, everywhere accessible. Northern Wisconsin is unexcelled by any region in the great abundance of pure cold water in her thousands of lakes, her many rivers, brooks and springs; indeed, the water supply will meet the requirements of the most exacting in its quantity, prevalence, purity, and coolness.

The second requisite is an abundance of wholesome stock foods, in good variety for summer and winter feeding. In summer time the dairy cattle of northern Wisconsin will find in its pastures the finest of grasses and clovers, for the cropping. Red and white clover flourish, and timothy and blue-grass pastures are as prevalent and productive as anywhere further south. The pasture season for cattle is not so long in the far north by about one month as in the extreme southern part of the state, but while they last, these pastures are not excelled by those in any other part of our country, as we have ascertained by careful, close study of the turf of this region. For winter forage the dairyman can provide an abundance of fodder corn, clover and timothy hay, pea straw, oat hay, root crops and silage from corn and clover. This gives him a list of coarse forage equal in variety and quality to that possessed by dairymen farther south in the state, and the abundance of these crops is only measured by the ambition of the farmer in producing them.

But dairy cows must have grain as well as coarse forage; here the northern farmer suffers nothing in comparison with dairymen elsewhere. Over much of the north Indian corn will ripen, giving that feed in abundance. Then there are oats, which give a sure crop of fine grain, and barley yields an abundance of grain excellent for cow feeding. The yield of peas at the north is far in excess of what can be gathered from this crop farther south, and pea meal furnishes a cow feed of the strongest character. The numerous railroads crossing northern Wisconsin lead to the milling centers of Minneapolis and Superior, making it an easy possibility for dairy farmers to secure bran and shorts to supplement the grains grown on the farm.—W. A. Henry, former Director of Wisconsin Agricultural Experiment Station.

The co-operating companies that are allied with the College of Agriculture in furthering the work will ship their land clearing apparatus and materials to some central point, where the train will be equipped and furnished for the trip.

Will the settlers of Upper Wisconsin show their interest in land clearing by attending the demonstrations of the Land Clearing Limited to be operated over the Soo Line, September 18 to October 18?

Will they be willing to leave their work long enough to give the men in charge the benefit of their personal ideas and experiences relative to the big job that is before the commonwealth of Wisconsin?

These questions have been pondered carefully by the group of men in charge of this co-operative demonstration train, which between Sept. 18 and Oct. 18 will tour ten of Wisconsin's cut-over counties.

Land clearing being a matter of much interest to the settlers of our county, the coming of the special train equipped with the latest and best of stump pulling and piling apparatus and explosives for a demonstration is an event of considerable importance to this region.

The demonstrations will be conducted in a plain, straightforward manner, without frills and theories. Uniform areas of land will be assigned to each of the demonstrators, with the understanding that all stumps shall be removed as they come, under actual working conditions.

Cost of Clearing Important Factor in Development Work.

FIRST AID FOR SETTLERS

Station to Give Special Attention to Problems of Upper Counties.

To demonstrate easier, quicker and cheaper ways of clearing logged-off or cut-over land, the "LAND CLEARING SPECIAL" will tour 10 of the principal counties of Wisconsin's timber belt beginning September 18.

The "stumping special" will be a distinctly working proposition of the most practical nature, intended as a demonstration to help men who have settled or will settle in the undeveloped, cut-over regions of the state.

The train, consisting of one flat car, three box cars for equipment, one cook car, one eating car, one bunk car and a caboose, will be operated through the co-operation of the Soo Line with the Wisconsin College of Agriculture and a number of the leading manufacturers of land clearing apparatus and explosives.

Agricultural representatives in the counties to be visited will help in making all necessary arrangements to secure the co-operation of farmers and land companies in furnishing men and teams to aid in the various demonstrations.

A crew of men, thoroughly familiar with the methods of land clearing to be shown, will accompany the train. Machines for pulling and piling the stumps will be carried by the demonstrators, including power and hand stumpers. Modern "safety first" systems for the use of explosives in land clearing will also be shown.

Several stops will be made during each week of the trip, which will cover one month's time. Each demonstration will be made as near the tracks as possible under actual working conditions. The old plan of making a few spectacular stump removals and then leaving for new fields will not be followed. On each tract a clean sweep will be taken of all stumps in sight.

At each of the places the demonstration field will be divided into plots requiring equal amounts of energy to clear them for the plow. Demonstrators for the various types of pullers will select their plots by lot, visiting farmers thus being given a chance to decide for themselves what process or processes are best suited to conditions on their own land. In case of unfavorable weather the demonstrations will consist of illustrated talks in the town halls or other meeting places, where charts, lantern slides and models will be displayed and explained and questions answered.

The counties to be included in the itinerary of the "LAND CLEARING SPECIAL" are: Douglas, Sawyer, Rusk, Ashland, Price, Taylor, Clark, Oneida and Forest counties.

LAND CLEARERS HELP IN "GROWING" FARMS.

Most of the land clearing in northern Wisconsin during the next decade as it has in the past, will be made up of the sum total of the small clearings of a few acres each—the work of sturdy honest and independent immigrants, largely from Poland, Denmark, Sweden, Austria, and Germany.

While it is true that most of these men are fully equal to long hours of work, they are always glad to practice newer and better methods of doing their tasks in order to save their energy for other things. Land clearing of all kinds is hard work at best, but it need not become burdensome beyond relief. There is generally an "easier" and better way of doing many jobs and it is well, whenever possible to find that way.

If the settlers could be assembled once in awhile at some convenient point for the purpose of talking over some of the best ways of stumping their farms, with exhibitions of land clearing machinery included, much good could be accomplished.

TAKE A DAY OFF WHEN
THE LAND CLEARING SPECIAL COMES TO
Rhinelander, October 13th

WHY? WHAT? HOW?

FACTS ABOUT "THE LAND CLEARING SPECIAL"

It will be a demonstration train, operated co-operatively by the "Soo Line", the College of Agriculture and manufacturers of land clearing machines and explosives.

It will consist of flat car, box cars for equipment, bunk cars and a boarding car.

It will be run for a period of four weeks in ten Wisconsin counties.

It will give free demonstrations of hand, horse and possibly power stumpers and pilers, as well as "safety first" explosive methods. Will show what stump pullers and dynamite in combination can do.

Its demonstrators will confer enroute with experienced farmers and business men relative to the general work of land clearing, exchange ideas and carry the results of the best experiments in one community to the people in the next.

They will aid in the formation of land clearing associations.

The train will visit fourteen towns in ten counties of Wisconsin—Forest, Oneida, Sawyer, Douglas, Washburn, Taylor, Price, Ashland, Clark and Rusk.

It is not operated for the personal gain of any single individual.

It is not operated by real estate speculators.

It is not a fanciful, "high-brow" special train, but an everyday working proposition operated by experienced woodsmen.

It will not try to force certain methods of land clearing upon settlers in the cut-over country.

It is not run on theory, or with the idea that the immense task of land clearing can be accomplished in a short time by some miraculous system.

It will not give away souvenirs or carry a brass band. It is run by land clearers for land clearers.

C. EBY,

offers for sale two good corner lots in the South Park Addition. One for \$200 and one for \$125. Street improvement, including water works and sewer.

NEW PENSION AGENT

A dispatch from Madison says Adj. Gen. Holway has by law been designated state pension agent, and will assist all soldiers or heirs residing in Wisconsin free of charge. Under the widow's pension bill which recently became a law the beneficiaries are: A widow of any soldier or sailor who served during the war, or widows who have attained the age of 70 years, \$20.00 per month; a widow whose pension lapsed on account of remarriage, whose husband subsequently died or from whom she was divorced without fault on her part, can be restored to the pension roll. Limitation on marriages subsequent to June 27, 1890, is now extended to the passage of the new bill.

DEMOCRAT COLUMN

September 25, 1916.
I notice in the "swing" that Candidate Hughes made through Wisconsin, Illinois, and Indiana, last week, that he emphasized the matter of the eight hour law, criticizing the President of course. The fact is that after all other means of getting that strike failed and it was brought up to President Wilson, he put in a solid week with the two factions, finally inducing the men to give up the "time and a half for overtime" but the railroad managers would not give up anything. It was therefore necessary in order to avoid a strike, to put the matter up to congress and obtain some legislation that would at least delay action. The Adamson bill was passed by large majority, every Wisconsin congressman and senator voting for it. Under these circumstances, the efforts of Mr. Hughes to claim this to be solely actuated by President Wilson, is unjust, although it is one of a number of statements that he has made since his nomination.

Senator LaFollette at Sturgeon Bay last week, defended the action of congress in passing the Adamson bill.

The Senator took no part in the Hughes demonstrations last week and is paying strict attention to his own affairs. He is not affiliating with the Philipp branch.

The Milwaukee Journal published last week, an offer of \$50 to anyone who could secure any statement from Mr. Hughes during his Wisconsin trip, as to his foreign policy if he were in the Presidential chair. When the Hughes train arrived at Milwaukee a man was placed on a high platform with a megaphone to call Mr. Hughes' attention to a number of questions that have been propounded to him without receiving any reply. It is needless to say that in his various speeches through the state, Mr. Hughes failed to answer any of those questions.

There is a growing belief that T. R. has been promised the position of Secretary of State under Hughes, if he is elected. This will be interesting news for the Germans, and everybody will give them the laugh if it happens. A political party that solicits support from the Pro Allies on one hand, and the Pro Germans on the other, is going to have hard work to justify itself. It was noticed that the Pro German Milwaukee Free Press expressed itself as delighted by the utterances of Mr. Hughes at the Milwaukee Auditorium. Now the Democrats who seem to be the only Pro Americans, are following up Mr. Hughes with effective speakers, and touching on the real live interests of the day are not showing any fear if his comments on Mexico and the eight hour law and the tariff after the war, and matters of a secondary nature.

President Wilson forced the German government to stop torpedoing passenger ships on the high seas, and after the war is over and there is time to present our claims properly, the German government will have to account for these many insults and deaths caused by their too zealous lieutenants.

A Slight Error
From the Boston (Mass) Post (Dem) "The rivers and harbors bill, known to the people as the pork barrel bill," said Candidate Hughes in one of his Western speeches, is largely money wasted, as there is no expert examination to determine what expenditures are needed."

Here again the Republican candidate betrays his ignorance of the actual affairs of government. Not a single item can get into the appropriations of the rivers and harbors bill without the approval of a board of United States army engineers after actual survey of the needs of each place asking money has been made.

But perhaps the candidate does not regard United States army engineers as expert. Would he do their work himself if elected President?

In Peoria, Illinois, during a speech by Mr. Hughes, some one in the audience asked the Candidate what he would have done had he been in President Wilson's place. Two policemen threw the impertinent questioner out; which was about the only logical and succinct answer that has yet been made to the question by the opposition party or its candidate.

C. C. CROSBY,
Chairman Democratic Com.

TWO WAREHOUSES HERE
Through the efforts of Ernest Axtell the Hartman Fruit & Produce company of St. Louis was induced to erect the potato warehouse in this city now in the course of building. Mr. Axtell is representative for the Hartman company in Wisconsin and for many years has been buying potatoes in this county and until two years ago was buyer for P. M. Olson.

This warehouse is the second which Mr. Axtell has brought to Rhinelander. He induced P. M. Olson to build the warehouse here now occupied by the L. Starks Co.

SPIDER BITE
The following is a true story of a spider bite. It was told me by a friend who was present at the time. A man named John Smith was bitten on the leg by a spider while he was working in his garden. The bite was very painful and the man was unable to work for several days. He was taken to the hospital and the doctor told him that the bite was from a venomous spider. The man was very frightened and did not know what to do. He was told to take some medicine and to rest. The man was very grateful to the doctor and to the people who helped him. He was able to go back to work and his leg was better. The man was very happy and he was very grateful to the people who helped him.

A Distinctive Reason

What is the chief reason for the superiority of Royal Baking Powder?

There are several good reasons, but there is one which distinguishes Royal from other baking powders.

This reason, which every woman should know, is that Royal Baking Powder is made from cream of tartar, which comes from grapes. This means a healthful fruit origin. It means natural food as distinguished from mineral substitutes used in other baking powders.

There is no alum nor phosphate in Royal Baking Powder

ROYAL BAKING POWDER CO
New York

In Doubt.
"Sometimes," confided Mrs. Longwood to her intimate friend, "I think my husband is the patientest, gentlest, best natured soul that ever lived, and sometimes I think it's just laziness."
Christian Herald.

Close to Us.
"What are the things that touch me?" as we look back through the years? "A moment's pause, a smile, a small toy in the audience eye, a 'Our clothes'."

THE NEW NORTH.
The New North Printing Co.
Entered at the Postoffice at Rhineland, Wis., as Second Class
Mail Matter
SEPTEMBER 28, 1916

"For the cause that lacks assistance;
For the wrong that needs resistance;
For the future in the distance
And the good that we can do."

The next time you meet a grouchy
take a good look at him. It is the
way you appear when you are in
the same class.

Scarcity resulting from the war
has advanced the price of quinine
750 per cent. But who cares? We
don't like the stuff, anyway.

The merchant who advocates
trading at home should set the ex-
ample by having his printing done
at home—which a few of them for-
get to remember.

There has been a tendency in
Oncida county to ignore the law in
contracting and paying bills. When
the law is pointed out to us we
should be glad to obey it.

There is a law to guide the coun-
ty clerk in the selection of a can-
vassing board for canvassing votes
and this is not being obeyed. The
law should be respected.

There comes a time in the lives
of most men when they see their
own imperfections more vividly
than others see them. It is then that
they are on the way to becoming
better men of nobler deeds.

In the main county officials who
are paid a yearly salary for their
services, can not draw extra pay
from the county for so-called extra
work. We know this law has been
disobeyed to an astonishing de-
gree for years. This should be
stopped.

THE ROAD BOND ISSUE

People seem to have failed to
wake up to the fact that Road Su-
perintendent F. E. Parker recom-
mended to the county board at its
September meeting that the coun-
ty vote bonds for three hundred
thousand dollars for new roads.
Mr. Parker suggested in the main
where the money should be spent.
This money was to be expended on
about a hundred forty miles of road.
We believe we need good roads and
need them badly. We feel we must
take an advance step in this direc-
tion or Oncida county will lose
the patronage of a large amount of
automobile trade now making an-
nual trips to the north part of the
state, but we do feel the county
money should be confined to
trunk lines in the main.
We must do this. In the list sug-
gested by Mr. Parker, it would
seem that many heavy expenditures
would not be the thickly settled
and heavily taxed portions of the
county. More, would it take three
hundred thousand dollars to build
a few trunk lines? If it is so, would
the heavy amount necessary to pay
interest on these bonds and the
great cost of maintaining so many
roads not be a burden on the
heavily taxed communities?

While it is not our desire to say
anything at this time to cause the
people to vote against a road bond
issue, we do wish the voters would
get busy and investigate all condi-
tions.

The city of Rhineland would
have to pay about two fifths of all
this cost and so Rhineland should
be getting busy to find out if as a
county seat center it is going
to get full value received. In fact
all parts of the county should measure
the cost to the value received.
Let us be intelligent when we shall
be called upon to vote upon the
bond issue.

WISCONSIN MEN "IRON BRIGADE"

Camp Mabry, Austin, Tex., Sept.
26—Wisconsin guardsmen in camp
here dubbed the "east iron brigade"
by Illinois soldiers when the
Illinois troops were chided by Gen-
eral Henry Green, division com-
mander, because they lost so many
men in the recent battle. "Well, that's
a east iron brigade," said an officer
in defense.

When the first battalion of the
second Wisconsin regiment arrived
at Camp Mabry, D. Ripan, 9
minutes to pitch its tents. The
eight Illinois, which arrived 15
minutes earlier, had only half its
tents pitched by the time the Wisconsin
battalion arrived.

The seventh chapter in the divi-
sion's history was written in the
division's history. The Wisconsin
battalion, which arrived at Camp
Mabry, D. Ripan, 9 minutes to
pitch its tents. The eight Illinois,

ORGANIZE ONEIDA COUNTY COMMITTEE

Town And Ward Republican
Committee Men Meet Here
Saturday

According to the call of Chair-
man C. H. Roepcke, the Republi-
can town and ward committeemen
of Oncida county met in the county
board room at Oncida county court
house, Saturday afternoon, Sept. 23
at 3 o'clock to organize the county
committee. C. H. Roepcke was
chosen chairman for the next two
years, F. A. Lowell secretary and
Olaf Goldstrand treasurer.

The following committee were
then chosen; assembly from this
county, Olaf Goldstrand and M. H.
Barton.

Senatorial, Frank Pecor and
Charles Bigelow.

Congressional, Chris. Eby and
Wm. Olson.

Motion made by Olaf Goldstrand
and carried by unanimous vote that
we are republicans, that the republi-
can candidates for county, state,
legislative and national offices were
chosen directly or indirectly at open
republican primaries and that we
as republicans support all the
republican nominees.

It was moved and carried that
Chairman Roepcke, Secretary Low-
ell and M. H. Barton act as execu-
tive committee.

Motion made and carried that
the republican committeemen who
have served as committeemen the
past two years be chosen to serve
the next two years in those towns
and wards where no republican
committeeman was chosen at the
recent September primary.

The following committee was ap-
pointed to settle with the old treas-
urer, Prescott Calkins: Olaf Gold-
strand, newly elected, treasurer,
Chris. Eby and Charles Bigelow.

A motion was made and carried
that a three column ten inch ad be
carried in the two republican coun-
ty newspapers until election day
beginning the first week in Octo-
ber for which fifteen dollars shall
be paid each newspaper.

A motion was made and carried
that all republican candidates be
requested to help make up a fund
to carry on the republican cam-
paign in the county. It was moved
and carried that the meeting ad-
journ to the call of the chairman.

Republicans over the whole na-
tion seem to be inclined to bury
their differences and get together.
If this is the policy election day
republicans will win in the North.

TOYS ARE SCARCE ASSERT DEALERS

Difficulty in getting kid-bodied
toys that would sell at popular
prices—twenty-five to fifty cents—
and small mechanical toys of good
quality for Christmas stock is be-
ing experienced by local toy deal-
ers, placing orders for Christmas
toys. The cheaper dolls and toys
are easy to get, having been man-
ufactured in this country, but those
which, before the war had been
manufactured in Germany are
scarce and prohibitive in price.

Penny pencils may within a few
months, be a thing of the past.
The last supply of them cost local
dealers \$1.45 for a gross—144—ex-
clusive of freight charges so that
they are sold at an actual loss for
the present. Journal and ledger paper,
which has been selling six sheets
for five cents will be increased in
price shortly because of a 25 cent
increase in the price to retail deal-
ers, just because effective. The pro-
duct supply, which was bought at
a normal cost will be retailed at
the usual price, but with the next
shipment the cost will be more.

In buying paper, notebooks, tablets,
pencils—in fact, everything in
which a book and stationery store
deals—the proprietors were told
that wholesalers would guarantee
no prices in the future. Most
instruments have increased in price
fifty per cent since the war
began.

CUT OF PULPWOOD MAY BE SMALL

It is not likely that the pulp-
wood industry in Wisconsin will
experience a sharp decline in pro-
duction this season, according to
reports from the state's pulp mills.
The Wisconsin Pulp and Paper
Association, which represents the
industry, has issued a statement
saying that the cut of pulpwood
this season is expected to be about
the same as last year's. The as-
sociation says that the weather has
been generally favorable for the
harvesting of pulpwood, and that
the mills are operating at a normal
rate. It also says that the price of
pulpwood has remained fairly sta-
ble, although there has been a slight
increase in some areas. The as-
sociation expects that the cut of
pulpwood this season will be about
the same as last year's, and that
the industry will continue to be
active and profitable.

ENTERPRISE

R. Johnson and F. A. Buelow at-
tended the Langlade county fair at
Antigo Wednesday.

Mrs. George Keeler is in Roches-
ter, Minn., where she is receiving
medical treatment.

H. Smith of Rhineland was a
caller here Wednesday.

Mrs. Gratton left for her home at
Antigo Friday. Her daughter, Hazel
will remain here and attend
school.

Miles Siekler is here attending to
the interests of the Wittenberg Ce-
lar Company.

Mr. and Mrs. F. A. Buelow return-
ed home from Antigo Saturday.

Rev. J. DeJong of Rhineland
held services here Sunday.

Mrs. L. Haase, Mrs. Wm. Haase
and daughter, Mr. and Mrs. R.
Schaeck and children autoed to
Elkhart Tuesday.

Mrs. M. V. Murray was quite ill
at her home Saturday evening. Dr.
Becker of Crandon was called to at-
tend her.

H. Reede of Escanaba, Mich. has
a crew of men loading up cedar
which he purchased from the Wit-
tenberg Cedar Co.

Miss Martha Johnson, who teach-
es at Parrish visited home folks
Saturday and Sunday.

Mr. Andrews of Crandon was
here on business last week.

The new road to Parrish Jet. has
been finished.

Mr. and Mrs. J. Holbrook and Mr.
and Mrs. Holbrook attended the
Forest county fair at Crandon this
week.

Mr. Ed. Keeler, who underwent
an operation in Milwaukee, return-
ed home Saturday.

GRANGE HOME COMING

Rhineland Grange 53 will hold
a regular meeting and social session
at the hall on S. Stevens street Fri-
day night. This is to be a home
coming and not only members in
good standing but all former mem-
bers are invited.

The Result.

Modern Fairy—Which do you choose
for your son, wealth or wisdom?

Young Mother—Wisdom. With wis-
dom he can obtain wealth, but with
wealth he cannot obtain wisdom.

Fairy—Sounds well, but have your
way.

Forty years later he was familiar
with science, art, literature, geography,
history, etc., and could speak ten lan-
guages, but for a living he was writ-
ing a biography of Mr. Fatpurs, the
great sausage maker!—London Tele-
graph.

Use Woman's Way.

A West Philadelphia woman is still
stammering over the "compliment" that a
guest paid her when she was hostess at
an entertainment a week ago. The
West Philadelphia woman, whose name
is not Brown, prides herself especially
on her coffee, and she made some of
her best for this occasion.

Among the guests was a woman who
makes it a practice always to compli-
ment persons with whom she comes in
contact. She says it makes others feel
pleasant and doesn't hurt her. During
the refreshments this guest turned to
the woman whose name is not Brown
and said:

"Your tea is so delicious! May I have
another cup?"—Philadelphia Ledger.

A Drop in Rhetoric.

"I remember," said an official of the
East Indian service, "the speech of an
Anglo-Indian who was delegated by a
certain district to place before the gov-
ernment's notice the horrible slaughter
of their stock by tigers. A very no-
ticeable titter could be heard in the
audience when the delegate shouted
very dramatically:

"Mr. Chairman, the tiger is the most
ferocious animal that prowls and runs
at large in India. He creeps from his
loking place at the hour of midnight,
when all nature is locked in the arms
of Morpheus, and ere the portals of
the east are unsealed or bright Phoebus
rises in his golden majesty whole lit-
ters of pigs are destroyed."

Butchers of Olden Times.

The Butchers' company can boast of
respectable antiquity, for it figures
among the "adulterine guilds" fined in
1190 for not being duly licensed. It
received a formal charter of incorpora-
tion during the reign of James I., and
down to the middle of the last century
exercised wide authority over the meat
trade of London. A butcher caught
selling mutton for lamb was heavily
fined, while if he sold tainted meat,
even in hot weather, he was put in the
pillory, where his meat was burned
under him. The Butchers' can claim
closer connection with English litera-
ture than most city companies, for two
centuries ago Daniel Defoe was a free-
man of this guild.—London Mirror.

Colored Hailstones.

Red hail is not unknown, even in
Great Britain, for in May of 1883 there
was quite a heavy fall of it at Castle-
wellan, in County Down. Red and
white fell together, and the red was
not mixed on the surface of the
pellets, but was through and through.
When caught in a sieve, the
stones were found to be
completely red.

At this time, when an enormous
quantity of colored paper has been
burned, the public was warned
against the use of colored paper in
funerals, as it was a bad omen.
The colored paper was a bad omen,
and the public was warned against
its use.

The last of the season's
The harvest of the year is at
Cape Henry, Va. the structure taking
100 feet high.

AN EASIER DAY in the KITCHEN

Aladdin Aluminum Saves Time, Work and Fuel. Alad-
din Utensils Have that Lightness, that Strength and
Usefulness--Above all, that REFINEMENT--that
Helps Create a Glory of Honest Pride in your
Tools and Work.

Well selected aluminum vessels--the *The Heavy Aladdin Kind*--are
cheapest in the long run. They are wholesome to use--free from poisonous sub-
stances--instant "dirt detectives"--and almost everlasting. Start now and build up
your set of Aladdin ware--you'll still have some of it left years hence to hand down
when you pass housekeeping responsibilities into younger hands. We sell the genu-
ine Aladdin--the trademark is on every piece.

An Aladdin Utensil For Every Need

Tea and Coffee Pots that have German silver hinges--rustless, neat and strong
no "wobbly" covers. No solder, but aluminum welding--doesn't tarnish or come
loose. Then, too, you can make a first-rate double boiler with an Aladdin Tea
Kettle and Aladdin Inset--two utensils in one--one cover does for both. You'll
also find a large assortment of size in Berlin Kettles--straight or swelled shapes.
You can't help liking them. There's also a strong serviceable Aladdin Fry Pan or
Skillet that, with half decent care, will last a lifetime. "Aladdin" is easily the fin-
est Aluminum on the market.

Mrs. Mildred Locke will conduct a Demonstration of
Aladdin Aluminum Ware at our Store

All Next Week--Oct. 2nd to Oct 7th.

T. C. Wood Hardware Co.

IMPROVEMENTS AT HIGHLAND VIEW

A large number of our citizens
last Sunday visited the Highland
View property now being develop-
ed by Nelting, Kahen and Co. This
property was formerly the Paul
Browne farm and was beautified
by him, and is to be further beautified
by the new owners. The fine
orchard established by Mr. Browne,
will not be disturbed for the pre-
sent and will be used by the own-
ers, as a demonstration farm, in
connection with their subdivision.
In a conversation had with Mr.
Nelting of the above firm, he stated
that the engineers were about ready
to lay out the property, and estab-
lish lot lines. The working plans
for the ornamental entrances have
been furnished, and those ornate
pillars will be an attraction to our
city.

Bids for cement sidewalks are
now being sought as it is intended
to lay 2000 lineal feet of sidewalk
this year, if weather conditions will
permit.

On the property to be platted,
trees are being cut and the many
beautiful knolls smoothed, so that
with the thinning of the woodland,
the property begins to put on a park
like appearance; and that is just
what it is to be, a residential park.
Mr. Nelting, who is in direct
charge of the work, has appointed
our townsman Martin Lally, fore-
man and he is pushing the develop-
ment with all haste. Go over at
your first opportunity and see what
is going on. You will be welcomed.

Long and Narrow.
"Our friend with an eye to the main
chance has a long head."
"Yes," replied Miss Cayenne, "but
isn't having too long a head likely to
make a man narrow minded?"—Wash-
ington Star.

Mr. and Mrs. George Shouldice returned Wednesday from a month's visit with his relatives in eastern Canada.

G. W. Blaisdell, an old and well known resident of Rhinelander, is critically ill at his home on the south side.

FOR SALE—Fine driving horse, harness and buggy for sale, reasonable. Horse weighs 1,150 lbs. Inquire 804 Mason Street. S28—

H. C. Zander of the Majestic theater put on a moving picture show in Lac du Flambeau Friday night. The pictures scored a big hit among the Indians.

Stephen Reed, who is now a resident of Owatonna, Minn., returned last week to his former farm in the town of Pine Lake to harvest his potato crop.

F. A. Marshall, of the Wisconsin Veneer company went to Wausau Wednesday to attend a banquet of the Central Wisconsin Traffic Bureau of which he is a member.

Dexter Brown entertained a large number of his schoolmates at the Brown cottage at Moon's lake Saturday evening. The main feature was a weiner wurst roast which the young people immensely enjoyed. The trip to and from the cottage was made in cars.

Rev. C. J. Silfversten was in Concord part of last week and last Sunday when he confirmed a class of 15 young people and also added to the membership 10 grown members and 20 children, a total addition to that congregation of 45 members.

The Rev. S. J. Tink, new pastor of the Methodist church and his wife and family will be cordially welcomed at a reception to be given in their honor at the social rooms of the church on Tuesday evening of next week. The congregations of all of the Protestant churches in the city are invited to attend. An attractive program is being arranged for the evening—Antigo Journal.

The new Rhinelander branch of the state laboratory of hygiene is justifying itself by results, says a Madison dispatch. Use of its facilities for analysis and diagnosis has been made by physicians all over the northern part of the state. The laboratory is manufacturing anti-typoid vaccine and sending doses to any physician in its territory upon request. Analyses are also made free of spurtum for tuberculosis, blood for typhoid, throat swabs for diphtheria, and of water for its purity.

Rhinelander Elks are arranging to stage their annual minstrel show on some date during the forepart of November. Miller & Draper, who directed the Elks' minstrels here last year, will have charge of the 1916 show.

Miss Florence Brown leaves tonight for Wellesley, Mass., to resume her studies at Dana Hall.

Miss Katherine Brown has returned to Madison to continue her University studies.

Allard Frogner, who for the last four months has efficiently served as reporter on the Rhinelander News, has resigned his position and will depart within two weeks for Parshal, N. D., where he will make his home with his brother, Dr. G. S. Frogner. His many friends here wish him success in his new home. Allard has been succeeded on the News by Lloyd Cain.

Dan O'Connell, while doing farm work a few days ago, was thrown from a wagon and received a broken collar bone. The injury will incapacitate him for a number of weeks.

NORTH SIDE ITEMS

Miss Cornelia Rothwell is on the sick list this week.

Miss Fern Ruggles and sister Cora were Antigo callers last week.

A. Barney of Ladysmith was a guest at the Snyder home over Sunday.

Miss Nellie Kelley of Bradley spent Saturday the guest of Miss Edith Blomdahl.

Miss Mabel White spent Saturday and Sunday at her home on Alban street, returning to her school in Jennings Monday morning.

Miss Margaret Charrey who is teaching at Jennings spent Saturday and Sunday at her home on Mason street.

Miss Irene Peterson left Monday for Stetsonville, where she will be the guest of her aunt Mrs. A. Laberge.

Maggie Witt and brother Will returned home from Stetsonville, Monday last after spending the past two weeks the guest of their sister Mrs. A. Laberge.

I want to thank all the dear friends of Mrs. Moberg and mine for making my visit in Rhinelander so very pleasant. May God bless you all. Mrs. Henry Willis Phelps, Minneapolis, Minn.

Mrs. Nels Buslette entertained the Wednesday club at her home on Stevens street. Mrs. Snyder, Mrs. Catherine Bouffion and Mrs. Christian received prizes. Refreshments were served and all report a good time.

Mrs. C. Ruggles entertained the Jolly Twelve card club at her home on Thayer street. Mrs. J. Swartz, Mrs. Nitchke and Mrs. Art Bouffion received prizes. Refreshments were served and all report a pleasant afternoon.

The ladies of the second ward entertained at a card social at the Parochial School Hall last week. Mrs. Peter Doyle received first prize, Mrs. Ed. LaDuke received ladies' second prize, Mr. Cain received gent's first prize and Peter Charrey received gent's second prize.

NOTICE

My wife having left my bed and board, I am not responsible for any debts contracted by her after this date.

Chas. L. Blackmer.

S28-01

GOOD FOR YOU, HERBERT

Musician Herbert Forbes, Company 1, Second regiment, Rhinelander, is a graduate of Shattuck Military Academy. He is one of the best soldiers in the company—Milwaukee Sentinel.

"REDDY" LONG IS DEAD

Charles E. Long, who was at one time a traveling salesman through this territory and later proprietor of the Butterfield Hotel, Antigo, died in Grand Rapids, Mich., Sept. 18. He was in charge of two hotels in Spartenburg, S. C. Mr. Long was well known in Rhinelander.

METHODIST EPISCOPAL

Sunday School at 10 o'clock. Preaching service at 11 o'clock. Topic: "Cooperation".

Epworth League at 6:15.

Evening service at 7:30. Topic: "The Transformation of a Life".

Prayer meeting on Thursday evening at 7:30.

You are cordially invited to attend any or all of these services.

Rev. William Wilson.

AROUND THE CIRCLE

Mrs. Chas. Hagen Sr. and Miss Margaret departed for Montana last week where they expect to make an extended visit with the former's daughter, Mrs. Magdon.

Dr. Willis Moore, Chicago, is spending a few days visiting Mrs. Moore on their farm in the town of Crescent.

Mrs. C. H. Dahl of Madison is spending a few weeks with her parents Mr. and Mrs. Lewis upon Elm Spring Farm.

Miss Ellen Getchel and sister are comfortably located at Woodboro, where they are keeping house for their uncle, Mr. O'Connell. Miss Ellen has been engaged to teach her second term of school there.

Herman Opelka is staying with his sister, Mrs. Seaman at Woodboro.

F. E. Davis Sr. of Arlington Heights, Ill., is spending a few weeks at his summer home on Crescent lake with his son Joseph. Mr. Davis recently completed 44 years service as postmaster at the Heights.

Wm. Radka may be seen most any day now dodging mud holes and the Crescent pumpkin rollers with his Ford.

Frank McLaughlin and Albert Paterson are filling their silos with some of the finest corn we have seen this season.

John Vieux has the foundation of his new house completed.

Walter Reader and family have moved into the Wm. Hahn house.

J. O. Davis has commenced the erection of a new up-to-date barn with concrete basement and equipped with the most modern improvements from plans drawn up by himself.

Mr. and Mrs. P. N. Davis have moved back upon their own place after spending the summer at Tender Foot farm.

Peter J. Turgeon has disposed of his farm property near the city to a Mr. Stafford who moved in and commenced operations this week.

James C. Stoll is a student in the law school at the University of Wisconsin at Madison. He is a member of the law fraternity.

After a long and arduous journey, the "D. S. Johnson" has arrived in the city. It is a fine and comfortable motor car, and is being used for the benefit of the poor.

"Do you work nights too?" asked the tourist. "Yes, I had water for the mud holes."—Ex

New Goods

FOR AUTUMN

Are Arriving Almost Daily—See Them!

For many months past our buyers have very been busy selecting the new lines for Fall and Winter. From the most reliable sources they have been buying merchandise of the better quality, to be able to Show our trade the finest and most authoritative styles for the coming season. While only a part of these new things have already arrived, an inspection of the advance lines will give you some intimation of what you may expect to find at KOLDENS, "The Quality Store," for Fall. Despite of the scarcity of many goods and higher prices, have purchased heavily and will display this season

The Greatest Stocks Ever Shown in Rhinelander!

—and at prices invariably as low as those of the past. Our advice to you, however, is to make early selections, while lines are at their best, offering the greatest variety for choice. Later in the season it will be almost impossible to buy some classes of goods at any prices. Dyes are getting very scarce, and wools are hard to get—these two elements mean more than is evident at the present time. Come now—tomorrow or the next day—to see the advance guards for autumn. We have them in a splendid assortment awaiting your choice.

The First Showing of the accepted Fall Styles in Pile Fabric Coats

is Now Ready For Your Inspection

Pile fabrics are the approved materials for Fall and Winter in Coats and will be more popularly worn than ever before. Their extreme elegance, their beauty and their service ability highly recommended these fabrics for all kinds of wear; and the original style creations are sure to make them most favored this season that at any previous time. Our line of Pile Fabric Coats is now complete, showing a multitude of the most authentic fashions and designs. An early inspection is very advisable. Come and look them over now.

Our Entire Line of the Newest Wool Dress Goods For Fall

is waiting for you now.

The difficulty in finding satisfactory wool dress goods this year is in the dyes. Old-fashioned, fast color dyes are very hard to get on account of the European war. But our buyers placed orders early, and have gathered a line of Fall Dress Goods which we guarantee to be fast-color. The new weaves and patterns and shades form a display very attractive. Now is the time to look them over, and to make a selection. Prices will interest you as much as the style, beauty and distinction of these fabrics. We'll be glad to show them to you.

An Early Inspection Is Very Advisable—Come and Look Them Over NOW!

CONGREGATIONAL CHURCH

The theme at the Congregational Church Sunday will be, "Why the Lord's Supper is significant." There will be special music by the choir. After the address the Communion Service will be held. All the members and friends will be present Sunday to again renew their pledge of loyalty to the Master. Come to the Bible School at ten o'clock. A special invitation is hereby extended to the public. The school teaches where no student is in the city. All will find a warm and comfortable worship with

PAY MORE WOLF MONEY

Wolf money were paid this week by County Clerk Verge to Louis Straub, Neal M. Hanna, Berg Cassian, and J. C. Neale, Tomahawk Lake.

WIVES OF RHINELANDER

Next Sunday evening letters will be read from the pulpit giving your ideas on what constitutes an ideal wife, after which Mr. Wedge will deliver an address on "Wifehood". Last Sunday evening the pastor of the Baptist church gave a tribute to Fatherhood. The attendance at both morning and evening services are increasing now that the hot weather is past: Sunday School 10 a. m. Morning Worship 11 a. m. H. Y. P. U. 6:30. Sermon on "The Ideal Wife" 7:30.

Who Is To Blame?
(A. C. Bane)

When a man gets drunk from the consumption of liquor, he alone is imprisoned or fined.

When a man under the influence of drink commits murder or some other crime, he only is punished.

In every case the public blames and condemns the drinker only; but is he in truth the only culprit? Should not others be punished with him?

The saloonkeeper who sells him the drink is equally guilty with the drinker, for his drunkenness and for all that results therefrom.

The brewer and distiller who make the liquor, knowing that it will intoxicate, are just as guilty as the saloonkeeper and the drinker.

The friend who invited him to drink must share the responsibility with the others named for the evil consequences of his drink.

The paper or magazine that advertised the sale of the liquor is responsible with the others for all the evils.

The national government that authorizes, and has become a partner in, the liquor traffic, is equally responsible with the man who became drunk.

The local government that licensed the traffic and sold to the saloonkeeper the privilege of selling intoxicating liquor is just as guilty as the man who became drunk on the liquor, or as the man who made or sold it.

The voting citizens, who voted, to endorse and sanction the license plan, and who in fact authorized the saloon to do business, are as much to blame for drunkenness and all of its subsequent crimes as is the drinker or saloonkeeper.

Society, the people, public opinion that authorizes and tolerates the liquor traffic, because of the false notion that the saloon is a financial asset, is the real original offender and culprit in every crime that results from the use of liquor. It is a worse offense to authorize a saloon than it is to conduct a saloon after it has been authorized.

There would not be a saloon in America if it had not been authorized by the voters; the creator of the saloon is the really responsible agent.

There is one thing in America worse than the liquor traffic, namely, the public sentiment that authorizes and tolerates it.

In terms of the dollar there are still some folks who cannot see the saloon license question except in the light of the dollar.

Whether your town is to have saloons or not involves a bigger problem than money.

We believe with the old preacher on this question, that it is better for a town to pay to go to Heaven than to go to hell free.

But the town that sacrifices the saloon revenue and thereby risks itself of the degrading influence of the saloon, actually does not suffer financial loss.

For the benefit of the taxpayer who is laboring under the delusion that saloons help to pay his taxes, from Wilcox in the American City.

He says that of the nearly three hundred million dollars net receipts of the 33 largest cities of the United States for the year 1901, about 61 per cent was derived from the general property tax; 7 per cent from liquor and other license fees; 5 per cent from special assessments; 10 per cent from water works, gas works, docks, etc.; 1 per cent from fire and official fees; 1 per cent from franchise sales and franchise taxes; and the rest from miscellaneous sources.

It will be seen from these figures that the largest receipts from saloons and other license fees is about one-fifth of the total receipts for all cities. Because of this, the saloon is not a financial asset, but a financial liability. The saloon is a financial liability because it costs more to operate than it brings in.

Therefore, to present a concrete case, the man whose taxes amount to \$10 a year, would have them increased less than \$1 if the saloon were abolished. But to offset this slight decrease there would be a considerable reduction in the cost of prosecuting and caring for criminals, housing and feeding paupers, and caring for the insane.

Chicago is one of these 33 cities, and the police court records of that city show a remarkable decrease in Sunday crime with Sunday saloons closed.

Put in terms of the dollar, prohibition pays.

For SALE—3 fresh milch cows, 2 yearling heifers, 3 heifer calves, Grade Guernseys at a bargain if taken quick. Write or call E. C. Binkley, Birchwood Farm, Three Lakes, Wis.

"Childhood Upsets"

When a child has fever, is listless, and complains of a dull head or stomach ache, he should be put to bed and given no food whatsoever. Physicians recognize this as of first and utmost importance. It would seem as if observant parents should also, but experience with parents or all classes convinces me that few of even the most intelligent do.

John is feeling out of sorts. He is grateful for a suggestion that he get into bed, even though he makes feeble protests because it is a boyhood principle never to go to bed without protest. The fever thermometer registers a degree or two of fever.

He wants a drink and the intelligent mother gives him all of the cool water he cares for. He asks for food if it near meal time. Here the intelligent mother says "no."

firmly. She doesn't need to be rough about it. John, under the circumstances, doesn't need a club. He doesn't really care for anything to eat. Once, more, he is only living up to the principles of boyhood.

Mother Intelligence opens the windows, lowers the shades sufficiently to shut glowing light, pats or kisses her boy good-night and quietly goes out. John very gratefully turns over and is asleep in a moment. Next morning when his bowels have been cleared out—and this is a safe thing to provide for ninety-nine times out of a hundred he's as fit as ever. This is the course of an intelligently treated "upset."

Less intelligent mothers are less firm. They cut down the food to a poached egg on toast and a glass of milk. As if a boy couldn't miss a meal without starving! Their John spends two or three days in bed before stomachs and intestines get the equivalent of the twelve hour rest that those of John, the first, had.

But suppose the disorder is more serious than a mere "upset." All the more reason for following the course of treatment outlined. Any fever, whether it come from bowels,

lungs, or the contagious diseases of childhood, calls for temporary shutting off of food and later reduction in quantity until recovery is complete.

Failure of parents to grasp and follow the above simple truths has resulted in the manufacture of too many small white collars.

HAVE YOU A BAD BACK?

If You Have, The Statement of This Rhinelander Resident Will Interest You

Does your back ache, night and day? Under work; destroy your rest? Does it stab you through and through?

When you stoop or lift or bend? Then your kidneys may be weak. Often backache is the clue.

Just to give you further proof, The kidney action may be wrong. If attention is not paid.

More distress will soon appear. Headaches, dizzy spells and nerves, Uric acid and its ills.

Make the burden worse and worse. Liniments and plasters can't reach the inward cause at all; Help the kidneys—use the pills.

Rhinelander folks have tried and proved. What they say you can believe. Read this Rhinelander woman's account.

See her, ask her, if you doubt. Mrs. C. L. Weston, 21 E. Anderson St., Rhinelander, says: "I have found Doan's Kidney Pills to be an excellent medicine for weak kidneys and backache. I value them highly and gladly confirm the endorsement I have previously given them."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Weston had. Foster-Milburn Co., Props., Buffalo, N. Y.

MINOCQUA

(Minocqua Times)

Burt Bassett, our enterprising Ford agent, continues to dispose of Ford cars regardless of the fact that he has sold scores of jitneys previous in the season. Last Saturday was the 1917's big day as he disposed of five new and one old car. Those buying new cars were: Joe Leslie, Lac du Flambeau; Jule Trap, Arbor Vitae; P. C. Christenson, Trout Lake; John Alrie, Manitowish; and Max Adler.

The past seven days have been baby week at Hazelhurst. New arrivals have been reported at the Elgin, Hapland, Grunow and Lowe homes.

Building operations in Minocqua have taken on quite a "boom" in the last month. There are a good many farm and town residences now in progress of construction. Jacob Kunz is building a fine residence on his farm; R. C. Wasserburger has two houses in progress of construction on Park Ave. and Fred Zentner is building a fine bungalow on the Hazelhurst addition.

The town board is having a sewer laid along Oneida street this week. The greater part of the work is being done with scrapers and under the supervision of Mr. Lindsay is progressing very rapidly. Residences along this block will be connected with the new sewer at once.

Schlecht and Wilson are busy with teams and men this week constructing a new bed for the new spur which will run into the mill. They expect to log extensively this winter and to make a big cut of lumber.

Burt Bassett had the misfortune to break two bones in his hand last Saturday. He was repairing a car and while cranking the car the shaft broke and before Burt could get away the crank struck him twice resulting in a bad fracture each time.

QUALITY VERSUS QUANTITY

Many housewives make a vital mistake in choosing some of their foodstuffs on the basis of quantity. It has been proven time and again that the cheapest is always the most expensive, while the highest price is not always the best.

There's a happy medium in everything. When you select foods, be careful. Don't choose any particular brand of, say Baking Powder for example, just because you get a big can for a small price.

The risk you take in ruining your entire baking and losing the cost of the materials involved is not any where equal to the small amount saved on the price of the Baking Powder.

Then again, because the price is high, don't think the quality is the best. Some women do, and they are losing money.

Look for the happy medium. You'll find it. Choose a brand that costs a moderate price and you'll find it more economical to buy and more economical to use.

The best Baking Powder in the world can be made so as to sell for 25c per 1 lb.

TEACHERS WILL MEET IN WAUSAU

Annual Convention Of Central Wisconsin Association On October 13 And 14

Many Rhinelander teachers are planning to attend the fourth annual convention of the Central Wisconsin Teachers' Association in Wausau October 13 and 14. The purpose of the meeting is to exchange constructive ideas for school work.

The following is a partial list of speakers:
Dr. George E. Vincent, president University of Minnesota.
Silas Evans, president Ripon college.
Carroll G. Pearce, president Milwaukee Normal school.
L. D. Harvey, president Stout Institute.
John Keith, president Oshkosh Normal school.
A. A. Thompson, inspector of rural schools, Madison.
Annie Reynolds, school inspector, Madison.
S. B. Tobey, superintendent of schools, Wausau.
M. M. Ames, Stevens Point Normal school.
O. W. Neale, Stevens Point Normal school.
Mathie McMillan, Antigo Training school.
E. D. Holdei, agricultural department, Merrill High school.
Alfred J. Herrick, Stevens Point Normal school.
H. E. Marquardt, Mayor of Wausau.

The section chairmen are as follows:
High school section—C. W. Schwede, superintendent of schools, Grand Rapids.
Grade school section—H. C. Snyder, superintendent of schools, Stevens Point.
Rural and Training school section—W. E. Switzer, principal Training school, Antigo.
Agricultural and Nature Study section—E. H. Miles, superintendent of schools, Waupaca.
Local Committee—S. B. Tobey, superintendent of schools, Wausau.
The executive committee is as follows:
Chairman, Wm. Milne, superintendent of schools, Merrill; C. W. Otto, superintendent of schools, Marshfield; M. H. Jackson, principal Wood County Training School, Grand Rapids; E. H. Iyer, Stevens Point Normal school; W. P. Colburn, superintendent of schools, Rhinelander; secretary and treasurer, Ira C. Painter, principal of High school, Wausau.

J. J. REARDON

MAIL ORDER DRUGGIST

NEWS NOTES FROM NEARBY CITIES

Tomahawk—John Higgins is the victim of the first hunting accident in this vicinity this season. The accident nearly cost him his life. Mr. Higgins was hunting ducks and was getting into his boat when his gun suddenly discharged, the shot passing so close to his head that it took off part of his ear. The peculiar part of the accident was, that the discharge of shot caught the cap on Higgins' head, tearing the outside of the cap from the lining.

Ashland—Soo line surveyors are at work on the right-of-way from near Ballon, near Mellen, to the Hoppenyan mine. This means that between now and next spring Mellen people will see ore trains passing thru that city from the Mellen mine to the Ashland ore docks. The mine

has a large stock pile which can be shipped as soon as the steel is laid. Florence—

Action was started in Circuit Court by Charles Simon, a Marinette County woodsman against the Girard Lbr Company, and in which he seeks to recover \$5000 damages alleged to have been sustained when he was ejected from the company's camp at Levin, Florence county. According to the complaint Simon was badly beaten by Wilson because he asked the woods foreman for his "time". The complaint alleges that Wilson, without provocation, bruised and partly disabled Simon, and then after ejecting him from the camp, refused to permit him to remain there overnight. As a result, the complaint alleges, Simon was obliged to walk to Armstrong Creek in his disabled condition, and not knowing the road, he lost his way and did not arrive at Armstrong Creek until 2 o'clock in the morning. Since that time, the plaintiff alleges, he has been physically incapacitated and he asks the court to award him \$5000 and the costs of the action.

New London—There will be a number of hustling villages built along the new

route of the Wisconsin & Northern now being built between Shawano and Black Creek. There will be a siding at Pleshek's in the town of Waukechon, and a station will be built at Lund's corners, where there is a store at present. It is also expected that a station will be built near Galesburg. As this is an extra good farming community it is supposed that there will be a thriving little village at Galesburg. There will probably be at least one station in Outagamie county before Black Creek is reached. The Wisconsin & Northern will open up a good territory and go through some excellent farming country which will give the farmers of that territory better railroad facilities.

Mosinee—There are occasions on record where dogs and cats have made long pilgrimages to return to the home of a former master, but it remains for a horse formerly owned by George W. Parker, of the town of Mosinee, to set a new record in this respect. The Parker family for many years owned a family driving horse that was made considerable of a pet and was frequently fed bits of sugar and other choice tidbits. About a year ago Mr. Parker disposed of the animal to some Wausau horse dealers and that was the last he saw of old Dobbin until Monday evening the attention of the family was attracted by a horse neighing outside of the window. On opening the door Mr. Parker was completely taken by surprise to find the horse he had

sold a year ago. He does not know to whom the animal belongs, or where it came from, as it is altogether probable that the men he sold it to had disposed of him to other parties.

COUNT PARCEL POST MAIL. All parcel post packages received at and sent out from the Rhinelander postoffice will be counted during a period of two weeks from October 2 to 16 according to the statement of Postmaster Matt Stapleton.

The statistics will be kept in all offices throughout the country for the purpose of obtaining statistics on the amount of parcel post matter that passes through the mails each day and the average cost of each package.

Every package that comes into goes from the local office will be kept tract of together with the weight of the package and the zone to which it is consigned. This work will require a large amount of additional labor in the local office.

Putting It Gently.

Mr. Henpeck—I hear that young Jones and his wife are not getting along very well. Mrs. Henpeck (authoritatively)—Jones should never have married when he did. He was too young to realize the step he was taking. Mr. Henpeck—Yes, I know. But I like the boy. We have many things in common.

THE COUNTY AGENT

(Written For The New North By Melvin Ryder)

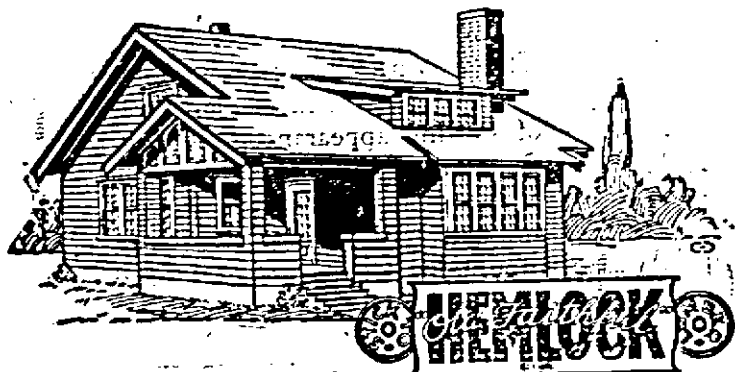

The county agent represents the outpost of the federal and state systems of agricultural education. Through him, the United States department of Agriculture and the state colleges and experiment stations are working to reach every farmer and to assist him to better prosperity through greater production and more profitable marketing of farm products.

In a sense, the county agent, or farm demonstrator, corresponds to the school teacher, the editor, and the rural minister. The school teacher brings the knowledge of the ages to his students, the editor brings the news of the world and the views upon current topics; the minister is in charge of the religious welfare of the community, and the county agent is in charge of the agricultural development and prosperity of the same community.

Built upon the principle of helping those who desire help, the county agent movement is succeeding and is opening up many farm communities in a manner well beyond the expectations of its organizers.

The place for the county agent is a big one and the opportunities are only limited by his ability and knowledge of better farming methods. He studies the needs and remedies in his county and government whenever it is needed. Thru personal work, he is able to secure the results that have never been obtained before through impersonal help.

Among the things which the county agent does, are included the improvement of soil and crops, the control of insects and plant diseases, the introduction of new crops, the testing of seed and the use of more profitable systems of rotation. He represents both the farmers and the educators. He was in touch with both the farmers and the leading investigators in the colleges and last two years the value of his experiment stations. Within the work has been recognized throughout the United States and the future development of the movement promises to bring about even greater results in the development of the farming industry of the United States.

FREE PLANS

for this and other "Old Faithful" HEMLOCK houses and many other buildings, from a hen coop upward. Any advice or help we can give you is yours for the asking.

TO GET THE FREE PLANS

Send to: The Hemlock Manufacturers, Oshkosh, Wis., for FREE BOOK (NEW), showing pictures and descriptions of Farm Houses, Town Houses, Bungalows, Garages and Outbuildings.
